

INTRODUCTION

CODY WARNER

HE/THEY

This is an overview of End Domestic Abuse Wisconsin's LGBTQ & Youth Program Director's services. This document is to provide the types of services in my position to support advocates and those serving victims of domestic violence, intimate partner violence, and hookup violence. Consider this document as a "boilerplate" template of the kinds of services you can expect from this position.

If there are services, resources, trainings, etc. you were looking for that are not included in this document, please still reach out to me. Advocacy has a lot of grey areas and I see it as my role to support those serving victims. That means evolving the services I can provide with the ever changing landscape that is advocacy.

As the LGBTQ & Youth Program Director it is my job is to provide support and technical assistance to those working with children, teens, protective caregivers, and LGBTQ folx in WI DV programs, including workers who are not affiliated directly with DV programs.
